XMAS FAMILY FUN DAY

Christmas provided the ideal opportunity to host the first fitness@flagstaff social event. I was delighted that at this busy time of the year about thirty

m e m b e r s came along, many of them bringing their partners and families.

Everyone had a good time and enjoyed mixing in a casual social environment. It was a great afternoon, that finished up in the early hours of the morning! I got to see everyone out of their training gear, and meet their families

who play an important support role.

The results of the second round of fitness testing were also available on the day. You

m i g h t b e interested to know that every one improved their performance in all of the test criteria...

Unfortunately,

when it comes to fitness there is no "magic pill" and until there is, none of us can escape good old-fashioned hard work! The tests indicate we must be doing something right - I was thrilled with everyone's results.
